Avenida Japurá, n.⁰ 488, Room 102 - Centre

Manaus/AM

Dear Sir,

In greeting him cordially, and in reply to the 'Document filed with this Institute under No.^o 9322/16, annexed to Case/IPAAM/N.^o 0350/98-V2, we hereby inform you that the environmental licensing process related to the Sustainable Forest Management Plan developed in the property called Fazenda Santa Rosa do Tenquê; municipality of Carauari/AM, of interest to the company APLUB AGROFLORESTAL DA AMAZÔNIA S.A., is in accordance with the legislation in force, with the scope of approval of the Final Exploration Report regarding the Operating License n.^o 385/00-02 and the renewal of APAT - Authorization Prior to the Technical Analysis of the Forest Management Plan n.^o 070/16, issued on 30 June 2016 necessary for the presentation of the update of the Sustainable Forest Management Plan and the respective new POE - Operational Exploration Plan.

It should be noted that the purpose of the APAT instrument is to:

1. Provide the authorization procedures of the PMFS with prior legal, administrative and technical certainty;
2. Eliminate redundant legal and administrative requirements during the monitoring and evaluation phase of the implementation of the PMFS and, consequently, give an essentially technical focus to the requirements inherent to the monitoring and evaluation of that execution.

Atenciosamente,
