

REPORT

INTERVIEW WITH INHABITANTS OF THE LOCALITY OF RIOZINHO CARAUARI/AM

CLIENT:

BR ARBO GESTÃO FLORESTAL S.A.

LOCAL:

LOCALITY RIOZINHO AROUND GLEBA SANTA ROSA DO TENQUÊ - CARAUARI/AM

PERIOD OF REALIZATION:

09 a 12/01/2023

INTERVIEWS:

JCris Consultoria Ambiental - ME

SUPPORT:

Lower Riozinho Residents Association - ASMOBRI Aclub/Carauari

1. OBJECTIVE

Interview the residents of the Riozinho creek in the surroundings of the Santa Rosa do Tenquê Gleba to present the Forest Conservation Project/BR ARBO and its respective objectives of benefiting the environment, preserving the forest in all its diversity, preventing global warming, maintaining water regimes and supporting the local community in its various needs.

2. MATERIALS AND METHODOLOGY USED:

The activity began on January 9, 2023 with the preparation of the logistics to reach the residents (18km of road until reaching the Riozinho creek). From there, the journey took place in a canoe with a rabeta motor with a team made up of the Interviewer (JCris Ambiental), Pilot (Aplub/Carauari) and Guide (ASMOBRI). The interviews were carried out in loco and in an instigating manner with the representatives of the families on January 10, 11 and 12, 2023. After arriving in the field, the data was compiled and a report drawn up.

In accordance with BR ARBO's guidelines, the interviewer followed the script below for the interviews:

SCRIPT FOR INTERVIEWS WITH INHABITANTS OF THE LOCALITY OF RIOZINHO - CARAUARI/AM

1) Inform the interviewee about the project 2) Information about the interviewee and family Name Gender: Marital status: RG: CPF: Level of education Activity Address/location where you live: Living conditions: And owner or not: Name of spouse: Gender: RG: CPF: Level of education Activity: How many children she has: ages: They're at school: What does the family live on?
